```
Token  |  Example
`[PRODUCT]`  |  "silicone kitchen tools"
`[AUDIENCE]`  |  "home cooks tired of flimsy utensils"
`[OFFER]`  |  "20% off + free shipping"

`[RESULT]`  |  "save 5 hours a week"
`[NUMBER]`  |  "10,000+ happy customers"

***KEY INSIGHT:** The best ad copy isn't clever — it's *specific*. "Get better results" is generic. "[AUDIENCE], get [RESULT] in [TIMEFRAME] without [PAIN]" is a hook. Always swap abstractions for specifics.*

[product] near me
buy [product] online
[product] cheap
```

Comparison (Researching):

```
[product] vs [competitor]
best [product] [year]
top [product] brands
[product] reviews
[product] alternatives
which [product] is best
```

Problem-Aware (Searching for Solution):

```
how to [solve problem]
[problem] solution
best way to [achieve goal]
[problem] fix
[problem] help
how to fix [problem]
```

Brand (Your Brand + Competitor):

```
[your brand]
[your brand] reviews
[your brand] coupon
[your brand] vs [competitor]
[your brand] alternative
```

Long-Tail (Low Competition, High Intent):

```
[product] for [specific audience]
[product] under [price]
[product] with [specific feature]
best [product] for [use case]
[product] [year] review
```

> **PRO TIP:** Start with exact match on high-intent keywords. Once you have conversion data, expand to phrase and broad match. Don't launch broad match on day one — you'll burn budget.

Chapter 3: TikTok & Short-Form Video — Hooks That Stop the Scroll

Short-form video ads live or die in the first 1-2 seconds. These hooks are designed for spoken audio, on-screen text, or both.

3.1 Spoken Hook Templates (for voiceover or talking head)

```
"POV: You just discovered [PRODUCT]."
"Stop scrolling if you [DESCRIBE AUDIENCE]."
"I tested [NUMBER] [PRODUCTS] so you don't have to."
"This is the [ADJECTIVE] [PRODUCT] I've ever tried."
```

"You won't believe what [PRODUCT] does."
"If you're a [AUDIENCE], watch this."
"The reason your [RESULT] isn't working — it's not what you think."
"I spent [MONEY] on [ALTERNATIVES]. This changed everything."
"This is what happens when you use [PRODUCT] for [TIMEFRAME]."
"Most people get [PRODUCT] wrong. Here's how to do it right."

3.2 On-Screen Text Hooks (bold, first frame)

"[NUMBER]% of [AUDIENCE] don't know this"
"The [PRODUCT] everyone is talking about"
"Stop wasting [RESOURCE] on [ALTERNATIVE]"
"This is your sign to try [PRODUCT]"
"I wish I found [PRODUCT] sooner"
"[RESULT] in [TIMEFRAME]? Yes, really."
"The [ADJECTIVE] hack for [GOAL]"
"[PRODUCT] vs. everything else"
"What nobody tells you about [TOPIC]"
"You need this if you're a [AUDIENCE]"

3.3 Caption Formulas (for the post text)

[HOOK QUESTION]?

[1-LINE ANSWER/PROMISE].

[PRODUCT] does [RESULT] in [TIMEFRAME]. No [OBJECTION].

[CTA] !’ [LINK]

"[REVIEW QUOTE]"

— [CUSTOMER], verified buyer

[PRODUCT] is changing how [AUDIENCE] [ACTION].

Get yours: [LINK]

Day [NUMBER] of trying [PRODUCT].

[RESULT] update: [SPECIFIC OUTCOME].

Still shocked this works.

Try it: [LINK]

Things that actually work:
' [PRODUCT] — [RESULT]
'L [ALTERNATIVE] — [WHY IT FAILS]
'L [ALTERNATIVE2] — [WHY IT FAILS]

[CTA] !’ [LINK]

The math:
[PRODUCT] = [PRICE]
[ALTERNATIVE] = [PRICE] + [HIDDEN COST]

[PRODUCT] wins.

```
Try it: [LINK]
```

```
> **KEY INSIGHT:** TikTok rewards *native* content. Ads that look like organic posts outperform polished commercials. Film on your phone, use trending sounds, and write like you're texting a friend.

## Chapter 4: Angles That Repeat Across Winning Ads

These aren't copy templates — they're *strategic angles* you apply to any product. Each angle comes with example swipes.

### 4.1 Before/After

Show the transformation. The more specific, the better.

Before: [PAIN STATE]
After: [RESULT STATE]

[PRODUCT] made it possible.
```

```
"I used to [PAIN ACTION]. Now I [RESULT ACTION]."

That's [PRODUCT].
```

```
Week 0: [PAIN]
Week 4: [IMPROVEMENT]
Week 8: [RESULT]

All with [PRODUCT].

### 4.2 Contrarian

Challenge conventional wisdom. Polarizes — which is good for clicks.

Everyone says [COMMON ADVICE]. They're wrong.

Here's what actually works: [PRODUCT].
```

```
Stop [POPULAR TREND]. It's hurting you.

[PRODUCT] is the [ADJECTIVE] alternative.
```

```
The "best" [PRODUCT TYPE] isn't what you think.

We tested [NUMBER] brands. Here's the real winner.

### 4.3 Founder Story

People buy from people. Origin stories build trust instantly.

I built [PRODUCT] because I was tired of [PAIN].
```

Now [NUMBER] [AUDIENCE] use it every day.

"We spent [MONEY] and [TIMEFRAME] developing [PRODUCT]."

"Here's why it was worth it."

The day I realized [PROBLEM] needed a better solution,
I knew I had to build [PRODUCT].

[RESULT] since then.

4.4 Objection-Killer

Name the doubt and destroy it in the same breath.

"But isn't [PRODUCT] just another [CATEGORY]?"

No. Here's why it's different: [DIFFERENTIATOR].

"It's too expensive."

[PRODUCT] costs [PRICE] — less than [ALTERNATIVE COST].

Do the math.

"Will it work for me?"

If you're a [AUDIENCE] dealing with [PAIN], yes.

[NUMBER]+ customers agree.

4.5 Offer-Stack

Bundle value so the offer feels like a steal.

[PRODUCT] + [BONUS 1] + [BONUS 2] = [TOTAL VALUE]

Today: [OFFER].

Buy [PRODUCT], get [BONUS] free.

Total value: [VALUE]. You pay: [PRICE].

This week only:
' [PRODUCT] ([VALUE])
' [BONUS 1] ([VALUE])
' [BONUS 2] ([VALUE])

All for [PRICE].

4.6 Urgency/Scarcity (Ethical)

Real deadlines. Real inventory. Real consequences.

```
[OFFER] ends [DAY].
After that, [PRODUCT] goes back to [ORIGINAL PRICE].
```

```
Only [NUMBER] units left at [PRICE].
When they're gone, next batch ships in [TIMEFRAME].
```

```
This [PRODUCT] drop is limited to [NUMBER] customers.
[NUMBER] already claimed theirs.
```

4.7 Social Proof Formats

```
[NUMBER]+ reviews. [NUMBER]+ stars. [PRODUCT] delivers.
```

```
"[REVIEW QUOTE]"
— [CUSTOMER NAME], [LOCATION]
[NUMBER] more verified reviews inside.
```

```
As featured in [MEDIA], trusted by [NUMBER]+ [AUDIENCE].
```

```
[CUSTOMER TYPE] are switching to [PRODUCT].
Here's why:
[REASON 1]
[REASON 2]
[REASON 3]
```

4.8 Problem-Agitation-Solution (PAS)

```
[PROBLEM]: [PAIN DESCRIPTION]
[AGITATION]: If you don't fix this, [NEGATIVE CONSEQUENCE].
[SOLUTION]: [PRODUCT] solves it in [TIMEFRAME].
```

```
You know [PAIN] is holding you back.
You've tried [ALTERNATIVE 1], [ALTERNATIVE 2], and [ALTERNATIVE 3].
None of them worked because they don't address [ROOT CAUSE].
[PRODUCT] does.
```

4.9 Curiosity Gap

Withhold information to force the click.

```
The [ADJECTIVE] mistake [AUDIENCE] make with [TOPIC].
It's not what you think — and fixing it could change everything.
```

```
I discovered something about [TOPIC] that nobody talks about.
It changed how I [ACTION]. Here's what I found.
```

```
There's a reason [NUMBER]+ [AUDIENCE] switched to [PRODUCT].
It's not the price. It's not the features.
It's [INSIGHT].
```

4.10 Comparison Angle

Position against alternatives without naming competitors.

```
[PRODUCT] vs. everything else:
'  [ADVANTAGE 1]
'  [ADVANTAGE 2]
'  [ADVANTAGE 3]
'L [COMPETITOR TYPE] only gives you [LIMITATION].
```

```
The difference between [PRODUCT] and [ALTERNATIVE]:
[PRODUCT] does [RESULT].
[ALTERNATIVE] just does [LESSER RESULT].
```

```
Why pay [PRICE] for [PRODUCT] when [ALTERNATIVE] costs [PRICE]?
Because [REASON]. [RESULT]. [BENEFIT].
```

4.11 Lifestyle Aspiration

Sell the identity, not the product.

```
[AUDIENCE] don't settle. Neither should you.
[PRODUCT] is for people who [VALUE/IDENTITY].
```

```
This is what [RESULT] looks like.
[PRODUCT] makes it possible.
```

Join the [NUMBER]+ [AUDIENCE] who [ACTION] differently.

[PRODUCT].

4.12 Risk Reversal

Remove all perceived risk.

Try [PRODUCT] risk-free for [TIMEFRAME].

Don't love it? Full refund. No questions asked.

[PRODUCT] comes with a [DURATION] guarantee.

If you don't see [RESULT], we'll refund every cent.

No contracts. No hidden fees. Cancel anytime.

[PRODUCT] or your money back.

> **PRO TIP:** The best ads combine 2-3 angles. A before/after hook with a social proof body and an offer-stack CTA outperforms any single-angle ad.

Chapter 6: Power Words & Emotional Triggers

Use these to punch up any swipe line. One power word per hook — more feels salesy.

6.1 Power Words by Emotion

Emotion	Power Words	Example
Curiosity	secret, hidden, surprising, unexpected, nobody tells you, the truth about	"The hidden cost of cheap [PRODUCT]"
Fear of Missing Out	limited, exclusive, only, insider, secret, insiders	"Limited to [NUMBER] customers"
Trust	proven, guaranteed, certified, verified, trusted, award-winning	"Proven results in [TIMEFRAME]"
Desire	luxury, premium, elite, exclusive, rare, coveted	"The premium [PRODUCT] for [AUDIENCE]"
Urgency	now, today, tonight, instantly, immediately, fast	"Get [RESULT] today"
Simplicity	easy, simple, effortless, one-click, done-for-you	"Done-for-you [PRODUCT]"
Authority	expert, professional, certified, doctor-recommended, #1	"#1 rated by [AUDIENCE]"
Social Proof	popular, trending, viral, everyone, [NUMBER]+, best-selling	"[NUMBER]+ [AUDIENCE] already switched"
Value	free, bonus, save, discount, deal, steal, bargain	"Free [BONUS] with every order"
Transformation	before/after, new you, upgrade, level up, breakthrough	"The breakthrough [AUDIENCE] have been waiting for"

6.2 Emotional Triggers That Drive Clicks

Trigger	What It Does	Example Hook
Pain	Agitates the problem	"Tired of [PAIN]?"
Pleasure	Promises the reward	"Imagine [POSITIVE STATE]"
Fear	Creates urgency through loss	"Don't let [NEGATIVE OUTCOME] happen"
Belonging	Taps into identity	"Join [NUMBER]+ [AUDIENCE] who [ACTION]"
Status	Appeals to aspiration	"The [ADJECTIVE] choice for [AUDIENCE]"
Curiosity	Opens an information gap	"What [AUDIENCE] don't know about [TOPIC]"
Greed	Maximizes perceived value	"Get [VALUE] for [PRICE]"
Laziness	Promises ease	"[RESULT] on autopilot"

> **PRO TIP:** The best hooks combine two emotions. "Tired of [PAIN] and ready for [RESULT] without [EFFORT]" hits pain + laziness. Test single-emotion vs. dual-emotion hooks — dual usually wins.

Chapter 7: A/B Testing Quick-Start

7.1 What to Test First

Priority	Element	Why It Matters	Example Test
1	**Hook**	Determines if they stop scrolling	Pain hook vs. benefit hook vs. curiosity hook
2	**Offer**	Determines if they click	20% off vs. free shipping vs. bundle deal
3	**CTA**	Determines if they convert	"Learn More" vs. "Shop Now" vs. "Get the Deal"
4	**Creative**	Determines if they engage	Video vs. image vs. carousel
5	**Headline**	Determines if they read	Benefit headline vs. urgency headline

7.2 How Many Variants?

Ad Budget	Recommended Variants	Testing Duration
$50-100/day	3-5	3-5 days
$100-500/day	5-10	5-7 days
$500+/day	10-20	7-14 days

7.3 How Long to Run?

- **Minimum:** 3 days or 1,000 impressions per variant (whichever comes first)
- **Ideal:** 5-7 days for statistically significant results
- **Don't kill early:** Let ads run long enough to gather data. Premature optimization kills winners.

7.4 What "Winning" Looks Like

Metric	Good	Great	Exceptional
CTR	1-2%	2-4%	4%+
CPC	Below industry avg	50% below avg	75% below avg
ROAS	2:1	3:1	5:1+
Conversion Rate	1-2%	2-4%	4%+

7.5 Testing Framework

1. **Pick one variable** — Don't change hook + offer + CTA at once. You'll never know what worked.
2. **Test 3-5 variants** — Enough to find a winner, not so many that budget is spread too thin.
3. **Run for minimum time** — Don't judge on day 1. Give it 3-5 days minimum.
4. **Kill losers, scale winners** — Reallocate budget to top 20% performers.
5. **Document everything** — Keep a swipe file of winners. Your future self will thank you.

> **KEY INSIGHT:** The 80/20 rule applies to ads: 20% of your creatives will drive 80% of your results. Your job is to find those 20% fast and scale them ruthlessly.
