- [object Object],[object Object]
- [object Object],[object Object]
- [object Object],[object Object]

Platform benchmarks (directional, adjust for your market)

```
Role  |  Entry  |  Mid  |  Senior
Shopify dev  |  $35–50/hr  |  $60–100/hr  |  $120+/hr or $5k+ per build
Meta ads mgmt  |  $500–800/mo + ad spend  |  $1,000–2,500/mo  |  $3k+/mo or % of spend
Graphic design  |  $30–60/hr  |  $75–150/hr  |  project-based brand systems
Content writing  |  $0.10–0.20/word  |  $0.25–0.50/word  |  retainers $1.5k+/mo
Virtual assistant  |  $8–15/hr  |  $15–30/hr  |  $30+/hr specialized
Video editing  |  $25–60/hr  |  $60–120/hr  |  per-video or channel retainers
```

9. Follow-Up Cadence: Where Replies Actually Come From

[object Object],[object Object]

The cadence

```
Day  |  Action
Day 0  |  Send tailored proposal. Log it.
Day 3  |  Short bump: add one new relevant proof point or insight about their business.
Day 7  |  Value-add follow-up: send a teardown, audit, or Loom of their current setup (free sample
of your work).
Day 14  |  Polite close: "I'll assume timing isn't right — want me to keep you in mind for Q[X]?"
This often triggers the reply.
Day 30+  |  Re-engage quarterly with something new (see cover letter #5).
```

14. What "Good" Looks Like at Each Stage

```
Stage  |  Signal
Resume passes scan  |  Client opens proposal instead of closing tab
Proposal lands  |  Reply within 48–72h, usually a question
First call  |  They describe their problem in detail = you're shortlisted
Proposal #2 / paid audit  |  They're negotiating scope, not whether to hire
Signed  |  You quoted a range, held a deposit, and scoped deliverables
```
