GPLMART HOST KIT

The Airbnb Host Welcome Kit

Guest books, house manuals, welcome notes, review cards and local guides - the printed touches that turn guests into 5-star reviews.

WHY THIS KIT WORKS

A handwritten-feel welcome book is the #1 thing guests photograph and mention in reviews.

A house manual kills 80% of 'how do I...' messages before they happen.

A review request card at checkout timing doubles your review rate.

Every template uses [BRACKETS] - fill in once, print dozens.

Print on cardstock, keep a stack at the property. Replenish monthly.
