Social Media Content Kit Vol. 1: Ecommerce Edition

[object Object]

[object Object]

> ***KEY INSIGHT:** Social commerce doesn't reward the most creative brand. It rewards the most consistent one. A mediocre caption posted every day beats a brilliant caption posted once a month.*

How to Use This Kit

[object Object],[object Object],[object Object],[object Object],[object Object]

Setup in 30 minutes

[object Object],[object Object],[object Object]
[object Object],[object Object],[object Object],[object Object],[object Object]
[object Object],[object Object],[object Object]
[object Object],[object Object],[object Object]
[object Object],[object Object],[object Object]

> ***PRO TIP:** Batch-create all captions for the week on Sunday. Spend 45 minutes editing instead of 20 minutes per day staring at a blank caption box.*

The 30-day rollout plan

[object Object]

[object Object]

```
Days  |  Theme  |  Job
1–3  |  Problem posts  |  Name the pain your customer already feels
4–7  |  Education posts  |  Teach something useful about the product category
```

[object Object]

[object Object]

```
Days  |  Theme  |  Job
8–10  |  Reviews & UGC  |  Let customers sell for you
11–14  |  Behind the scenes  |  Show the humans and the process
```

[object Object]

[object Object]

```
Days  |  Theme  |  Job
15–17  |  Offer posts  |  Bundle, discount, gift-with-purchase
18–21  |  Urgency & objection handling  |  Answer "is it worth it?" publicly
```

[object Object]

[object Object]

```
Days  |  Theme  |  Job
22–24  |  Engagement  |  Questions, polls, "this or that"
25–28  |  Customer stories  |  Feature real buyers
29–30  |  Recap & next-cycle tease  |  Look back, tease what's coming
```

***KEY INSIGHT:** The funnel isn't linear — it's a loop. Week 4 community posts feed back into Week 1's audience pool. A buyer who comments in Week 4 is a warmer lead for Week 3's offer next cycle.*

Chapter 1: Instagram Caption Formulas

[object Object]

The five formulas

```
Formula  |  Structure  |  Use when  |  Best metric
Save  |  Hook !’ value !’ "save this"  |  Educational content  |  Saves
Educational  |  Claim !’ explanation !’ proof !’ takeaway  |  Building authority  |  Shares, follows
Story  |  Scene !’ feeling !’ product !’ soft CTA  |  Lifestyle imagery  |  Comments, DMs
Promo  |  Pain !’ offer !’ urgency !’ CTA  |  Sales posts  |  Link clicks, orders
Question  |  Observation !’ question !’ reply prompt  |  Engagement  |  Comments
```

***KEY INSIGHT:** Instagram's algorithm weighs sends (DM shares) and saves more heavily than likes. Write captions that give people a reason to save — checklists, comparisons, "steal this" angles.*

Save captions (educational, bookmark-worthy)

```
POV: you finally found the [PRODUCT] that actually [OUTCOME].

Here's why it works:
1. [REASON 1]
2. [REASON 2]
3. [REASON 3]

Save this before you forget. Tag the friend who needs it. Ø=ÜG
```

```
The [PRODUCT] buying guide nobody gave you:

!’ [DIMENSION 1] matters because...
!’ [DIMENSION 2] matters because...
!’ Here's what to avoid at all costs.

Save + share with someone shopping right now.
```

```
3 signs your [CATEGORY] is the problem:

&  [SIGN 1]
&  [SIGN 2]
&  [SIGN 3]

If you checked 2+, [PRODUCT] was built for you.

Save this checklist — you'll want it later.

### Educational captions (authority builders)

[MYTH] about [CATEGORY] is costing you money.

The truth? [FACT].

Most brands charge more for [THING] that doesn't actually [BENEFIT]. [BRAND] does it
differently: [DIFFERENCE].

Drop a Ø=Ý% if this surprised you.
```

We analyzed [NUMBER] reviews of [CATEGORY]. Here's what customers actually complained about:

1. [COMPLAINT 1]
2. [COMPLAINT 2]
3. [COMPLAINT 3]

Every single [PRODUCT] we make fixes these — here's how. [LINK IN BIO]

How to choose a [PRODUCT TYPE] in 30 seconds:

Step 1: [STEP]
Step 2: [STEP]
Step 3: [STEP]

No BS, no upsell. Just the checklist we give our own customers.

Story captions (lifestyle, human)

This is what [OUTCOME] actually looks like on a Tuesday.

Not the highlight reel — just [PRODUCT] doing its job quietly in the background of a normal life.

That's the whole point of [BRAND].

I didn't expect [PRODUCT] to change my morning routine this much.

Now: coffee, [PRODUCT], done. The little things compound.

[SOFT CTA — e.g., "See it in action !’ link in bio"]

My customer sent this photo today. [DESCRIBE PHOTO]

She bought [PRODUCT] 3 weeks ago for [REASON]. This is what happened next.

Real people. Real results. That's [BRAND].

Promo captions (direct response)

[OFFER] ends [WHEN].

[PRODUCT] — normally $[PRICE], today $[PRICE].

Here's why this price won't last: [REASON — limited stock, seasonal, cost increase].

!’ [LINK]

The math on [PRODUCT]:

You spend $[X] on [ALTERNATIVE] every [TIMEFRAME].
[PRODUCT] costs $[Y] once.

That's $[Z] back in your pocket per year.

!’ Grab yours before [WHEN]: [LINK]

Your cart called. It wants [PRODUCT].

But seriously — [NUMBER] people bought this week. When it's gone, it's gone (restock [WHEN], if at all).

!’ [LINK]

Question captions (comment magnets)

Quick question: what's the one thing you wish your [PRODUCT CATEGORY] did better?

I'll read every comment — and yes, several of your answers are already on our roadmap. Ø=Ü@

Be honest: have you ever bought a [PRODUCT TYPE] that didn't work?

What went wrong? Tell me in the comments — the answers genuinely help us build better products.

This or that:

[A OPTION] or [B OPTION]?

Drop your answer below. Ø=ÜG

(Wrong answers get a discount code. Kidding. Or am I?)

> **PRO TIP:** End every promo caption with a question disguised as urgency: "How many have you got left?" beats "Shop now" every time — it forces the prospect to engage instead of scroll.

Chapter 2: TikTok & Reels Hooks for Ecommerce

The first 1–3 seconds decide everything. These hooks are grouped by structure. Pair any hook with your product demo in the next 5 seconds.

Problem-agitate-solve (PAS)

"Your [PRODUCT CATEGORY] is broken and you don't even know it."

"Stop wasting money on [ALTERNATIVE]. Here's what actually works."

"I spent $[X] and [NUMBER] years figuring out [PROBLEM]. Here's the shortcut."

"Nobody talks about this [CATEGORY] mistake. It cost me [X]."

"If your [THING] still [BAD OUTCOME], you're doing it wrong."

Demo hooks

"Watch what happens when I [ACTION] with [PRODUCT]."

"This is [PRODUCT] after [TIMEFRAME]. No filters."

"One spray of this and watch — [VISIBLE RESULT]."

"I didn't believe it either until I tried [PRODUCT]."

"POV: [PRODUCT] actually works like they say."

Myth-bust hooks

"[COMMON BELIEF] about [CATEGORY]? Total myth."

"3 things 'experts' tell you about [CATEGORY] that are wrong."

"Expensive doesn't mean better. Here's proof."

"You don't need [COMMON SOLUTION]. You need this instead."

Behind-the-scenes hooks

"This is how [PRODUCT] is actually made. You're not ready."

"A day in the warehouse that ships [NUMBER] orders."

"We tested [NUMBER] versions of this before this one."

"The packaging unboxing your customers actually film."

Trend-jack hooks (swap [TREND] for whatever's on your FYP)

"[TREND] but make it [PRODUCT CATEGORY]."

"The [TREND] transition, but with [PRODUCT]."

"Things that look aesthetic but actually [PRODUCT-RELATED TRUTH]."

"Rating [TREND] with [PRODUCT]. It's a 10/10 because [REASON]."

Story hooks (highest-converting for DTC)

"I almost didn't launch [PRODUCT]. Here's why I'm glad I did."

"A customer emailed me crying about [PRODUCT]. Here's what happened."

"I was broke when I started [BRAND]. [PRODUCT] is what changed it."

"My worst product decision became our best seller."

> **KEY INSIGHT:** Hooks with numbers ("3 mistakes," "in 30 seconds," "$47") get roughly 2x the watch-through of vague hooks. Specificity is the scroll-stopper.

Chapter 3: The 30-Day Content Calendar

Run this calendar alongside the weekly arc. `calendar.csv` contains the same data for your spreadsheet.

Day	Week	Theme	Format	Caption Category	CTA
1	1	Hook: the problem	Reel/TikTok	Educational	"Save this"
2	1	Myth vs fact	Carousel	Educational	"Send to a friend"
3	1	Before/after	Reel	Social-proof	"Link in bio"
4	1	How it's made	Reel	Behind-scenes	"Follow for part 2"
5	1	Customer question	Story poll	Engagement	"Answer in comments"
6	1	Comparison post	Carousel	Educational	"Save this"
7	1	Week-1 recap	Story	Engagement	"DM us 'WEEK1'"
8	2	Review screenshot	Post	Social-proof	"Link in bio"
9	2	Unboxing video	Reel	Social-proof	"Tag us"
10	2	UGC repost	Reel	Social-proof	"Tag us"
11	2	Founder story	Reel	Behind-scenes	"Share this"
12	2	Warehouse tour	Reel	Behind-scenes	"Follow"
13	2	Packaging reveal	Carousel	Behind-scenes	"Save this"
14	2	Week-2 recap	Story	Engagement	"DM us"
15	3	Launch the offer	Post + Story	Promo	"Shop now"
16	3	Objection handler	Reel	Promo	"Comment below"
17	3	Bundle math	Carousel	Promo	"Link in bio"
18	3	Urgency post	Story	Promo	"Shop before it ends"
19	3	FAQ video	Reel	Educational	"Comment questions"
20	3	Price-breakdown post	Post	Promo	"Link in bio"
21	3	Offer reminder	Story	Promo	"Last chance"
22	4	Poll: this or that	Story	Engagement	"Vote"
23	4	Customer story feature	Reel	Social-proof	"Share this"
24	4	AMA in comments	Story	Engagement	"Ask anything"
25	4	Behind-the-decision	Reel	Behind-scenes	"Follow"
26	4	Community repost	Reel	Engagement	"Tag a friend"
27	4	Results montage	Reel	Social-proof	"Link in bio"
28	4	Gratitude post	Post	Engagement	"Comment"
29	4	Month recap	Carousel	Engagement	"Save this"
30	4	Next-cycle tease	Story	Promo	"DM 'NEXT' for early access"

> **PRO TIP:** Post the "offer" days (15, 17, 20, 21) as paid-boost candidates. Educational and behind-scenes content rarely needs boosting because it earns reach organically — spend your ad budget where the buying intent already is.

Chapter 4: Hashtag Strategy

The 30/20/10 rule

Every caption gets hashtags in three tiers:

- **10 broad tags** — your category (#skincare, #homegoods). Discovery, low intent.
- **10 mid tags** — niche + audience (#cleanbeauty, #smallbusinessowner). Moderate reach.
- **10 niche tags** — hyper-specific (#veganmoisturizers, #shopifyfounder). Low reach, high intent — this is where buyers hide.

> **KEY INSIGHT:** Niche hashtags convert. A tag like #smallbatchskincare reaches 5,000 people who are exactly your customer; #skincare reaches 50 million people who are nobody in particular.

Rules

1. Rotate 3 sets weekly so you don't look spammy to the algorithm.
2. Never reuse the exact same 30-tag block twice in a row.
3. Create ONE branded tag (#yourbrandname) and use it in every post — it builds a searchable archive.
4. Check a tag before using it: if the top posts aren't your niche, skip it.
5. On TikTok/Reels, 3–5 tags beat 30 — use the niche set only.

`hashtags.csv` contains six ready-made sets: ecommerce-general, fashion, home-decor, beauty, fitness, handmade.

Chapter 5: Stories, Highlights & DM Replies

Story series that always works

| Series | Frequency | Format |

```
|--------|-----------|--------|
| "This or that" poll | 2x/week | Two product options |
| "Ask me anything" box | Weekly | Answer in next Story |
| "Behind the scenes" clip | 3x/week | Raw footage, no polish |
| "Customer spotlight" | Weekly | Repost tagged customer |
| "New drop countdown" | Pre-launch | Sticker countdown |
| "Restock alert" | When relevant | Countdown sticker |

### Highlight structure (covers sell followers)

Create 5 highlights, in this order:

1. **Start here** — who you are, what you sell, why it exists (3–5 frames).
2. **Reviews** — screenshots of 5-star reviews.
3. **How it's made** — process footage.
4. **FAQ** — answer the top 5 objections as text-on-screen.
5. **Shop** — current products with prices.

> **PRO TIP:** The FAQ highlight quietly does sales work 24/7. Every "is this worth it?"
comment gets answered once, permanently, for every future visitor.

### Pinned-post strategy

Pin three posts to your Instagram grid, in this order:

1. **The proof post** — best review or UGC. Cold visitors see social proof first.
2. **The offer post** — current promotion or best-seller. Converts the warm.
3. **The story post** — founder origin or brand mission. Humanizes the brand.

Rotate the offer pin every campaign. Keep the proof pin until a better review appears.

### DM auto-reply templates

"Thanks for your comment! We sent you a DM with the link Ø=Üé
Check your requests folder if you don't see it."

"Great question! Short answer: [ANSWER].
Long answer: [LINK TO FAQ/BLOG]
Anything else? We're here. Ø=Ü¬"

"You caught our eye — we like you already.
Here's 10% off your first order: [CODE]
Valid for 48 hours. Happy shopping! Ø=ÞÍþ "

"Thanks for sharing! We feature customer posts every Friday.
Tag @[BRAND] next time and you might make the grid. Ø=Üø"

"Order question? Send us your order number and we'll sort it in under 2 hours.
support@[BRAND].com or DM here — whichever's faster for you."

"We read every comment. If yours got buried, drop us a DM —
we'll make sure you get an answer personally."

---

## Chapter 6: Metrics That Matter + Weekly Review

### Vanity vs. revenue metrics
```

Vanity (ignore)	Revenue (watch)
Follower count	Profile visits !’ website clicks
Likes	Saves per post
Impressions	Comments per post
Views	DM inquiries
Reach	Orders attributed to social

> **KEY INSIGHT:** A post with 2,000 views and 40 saves is worth more than a post with 20,000 views and 5 likes. Saves signal "I need this later" — that's purchase intent. Likes signal nothing.

The weekly review checklist

Every Sunday, spend 15 minutes:

- [ ] Which post got the most **saves** this week? Make 3 variations of it.
- [ ] Which post got the most **comments**? Reply to every one — unanswered comments kill reach.
- [ ] Which **story** got the most replies? Repeat that format.
- [ ] Did profile visits convert to link clicks? If not, your bio link or pinned post needs work.
- [ ] Which hashtag set performed best? Rotate it back in next week.
- [ ] Any DM saying "how do I buy?" Note the phrasing — it belongs in your FAQ highlight.
- [ ] Which day had the best engagement? Shift your posting time to match.

Monthly deep-dive

- Compare this month's saves/comments/sends against last month's.
- Identify your top 3 posts of all time. Repurpose each into a new format (carousel !’ Reel, Reel !’ Story series).
- Check which caption category drove the most profile-to-site clicks. Double down on it next cycle.

Quick-Reference Card

```
WEEK 1: Educate    !’ save posts, myths, checklists
WEEK 2: Prove      !’ reviews, UGC, behind-scenes
WEEK 3: Offer      !’ bundles, urgency, objection handling
WEEK 4: Community  !’ polls, stories, AMAs

FORMULAS: Save / Educational / Story / Promo / Question
HOOKS: PAS / Demo / Myth-bust / BTS / Trend / Story
RULES: 30 tags (10/10/10) | Pin 3 posts | 5 highlights
METRICS: Saves > Comments > Sends > Likes > Reach
```
